LETTER FROM THE SUPERINTENDENT

DJ WOODRUFF

After a long snowy winter, the golf course is doing well. Aside from the late departure of the snow and some expected snow mold damage, the course looks great! The maintenance crew worked hard last fall to ensure the course was prepared for winter and their efforts paid off. As the weather improves, we should see a lush, healthy golf course that looks and plays great.

Due to the late start to the golf season, we will push the greens aerification to the end of the golf season which should be fine. As long as the greens get aerified once a year, they will get the required removal of organic matter, gas exchange, water infiltration, root development, and alleviation of compaction necessary to keep the greens as healthy and playable as possible.

Enjoy the course and have fun out there!

DJ Woodruff
PSGC Superintendent
